# School News

Scott continues to go through renovation cycles. The thermal energy units have been under construction this Summer. More internal changes with demolition and remodeling are ongoing. With Simon Kenton's need to assume population growth from southern Kenton County and its current overpopulation, Scott having lost Edgewood streets to Dixie last year and it will likely get some areas from Simon Kenton's northern boundaries as the need to redistribute students among the three Kenton County high schools is met. This re-allocation should balance the schools through the next decade.

Demolition of The Commons began this summer.

After nominations were taken from the public among the three Kenton County High Schools for an Outstanding Graduate to be recognized by the Kenton County Educational Foundation, Doug Pelfrey '88 was chosen for his civic work. Very cool! Proceeds from the event and sponsors of the program went to support the Family Resource Centers for disadvantaged kids. Good man, great cause.
